

MARKDOWN MADNESS

STATIC SITES FOR FUN & PROFIT

Gilbert Sanchez

@HeyItsGilbert

April 13-16, 2026

Agenda

- Markup? Markdown?
- Static Sites
- Tools
- Demos
- Q&A

Thanks

Hey! It's Gilbert

- Staff Software Development Engineer
- ADHD 🌶️ 🧠
- Links.GilbertSanchez.com

But First... A Warning

This talk is mostly about markdown... but anything goes when it comes to static generation!

What is Markdown?

*A lightweight **markup** language for easily formatting text.*

What is Markdown?

A lightweight **markup** language for easily formatting text.

- Markdown (md)
- Asciidoc (adoc)
- reStructuredText (reST)

You think this is PowerPoint you're watching?

Flavor Examples

- ~~Strikethroughs~~
- Footnotes [¹]
- ^Superscript
- Tables
- Math
- Mermaid
- [x] Task List

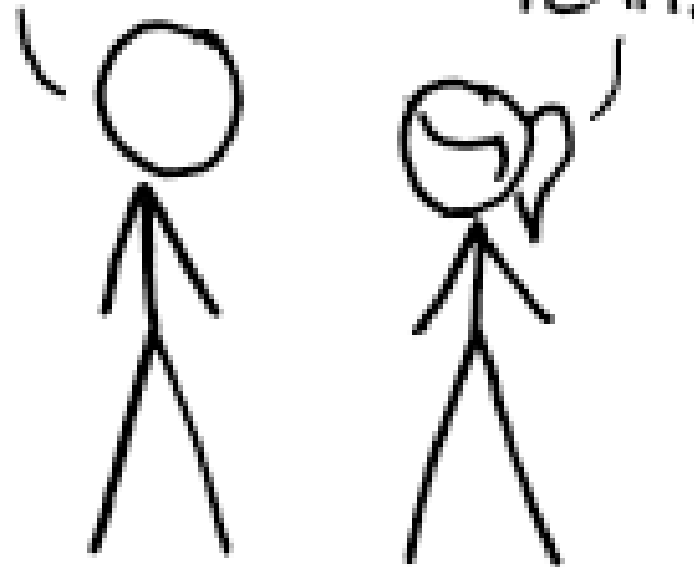

[¹]: Give 5 stars

HOW STANDARDS PROLIFERATE:

(SEE: A/C CHARGERS, CHARACTER ENCODINGS, INSTANT MESSAGING, ETC)

SITUATION:
THERE ARE
14 COMPETING
STANDARDS.

14?! RIDICULOUS!
WE NEED TO DEVELOP
ONE UNIVERSAL STANDARD
THAT COVERS EVERYONE'S
USE CASES.

YEAH!

SOON:

SITUATION:
THERE ARE
15 COMPETING
STANDARDS.

Hello world time

```
# Hello  
  
Hello world!  
  
## Turtles  
  
I *like* them!
```

Hello

Hello world!

Turtles

I *like* them!

Front Matter

Front matter is YAML provides metadata or configuration.

```
---  
title: Hello  
---  
# Hello  
  
Hello world!
```

Static Sites

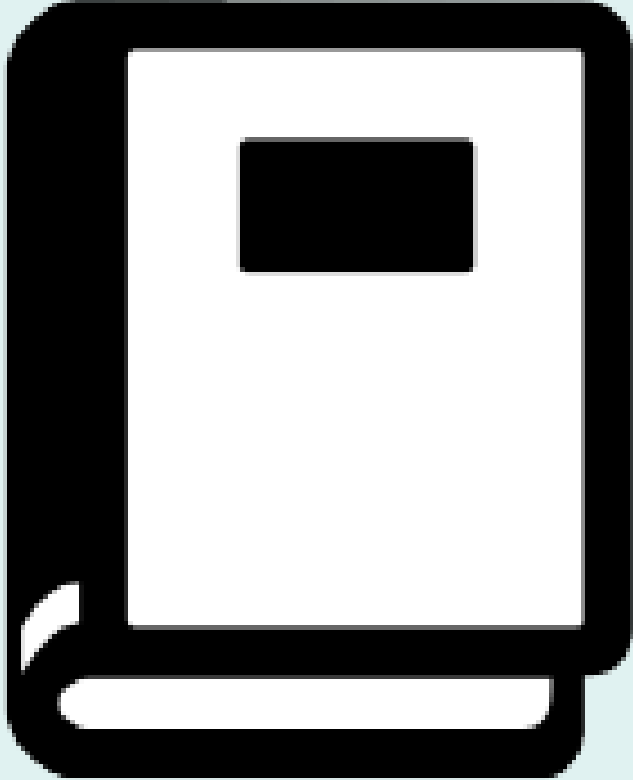

Static sites are:

1. CLI-generated
2. Output as HTML
3. No runtime server.

Jekyll

- Written in **Ruby**
- Great for docs and blogs
- GitHub Pages built-in support
- Liquid templating
- Mature ecosystem with many themes

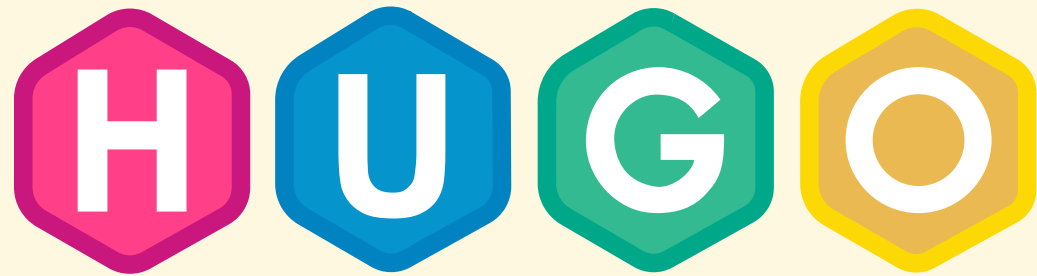

MkDocs

- Written in **Python**
- Purpose-built for documentation
- Material for MkDocs theme is excellent
- Simple `mkdocs.yml` configuration
- Live reload dev server

Hugo

- Written in **Go**
- Blazingly fast builds
- Docs, blogs, portfolios, and more
- Powerful templating and shortcodes
- Single binary, no dependencies

Docusaurus

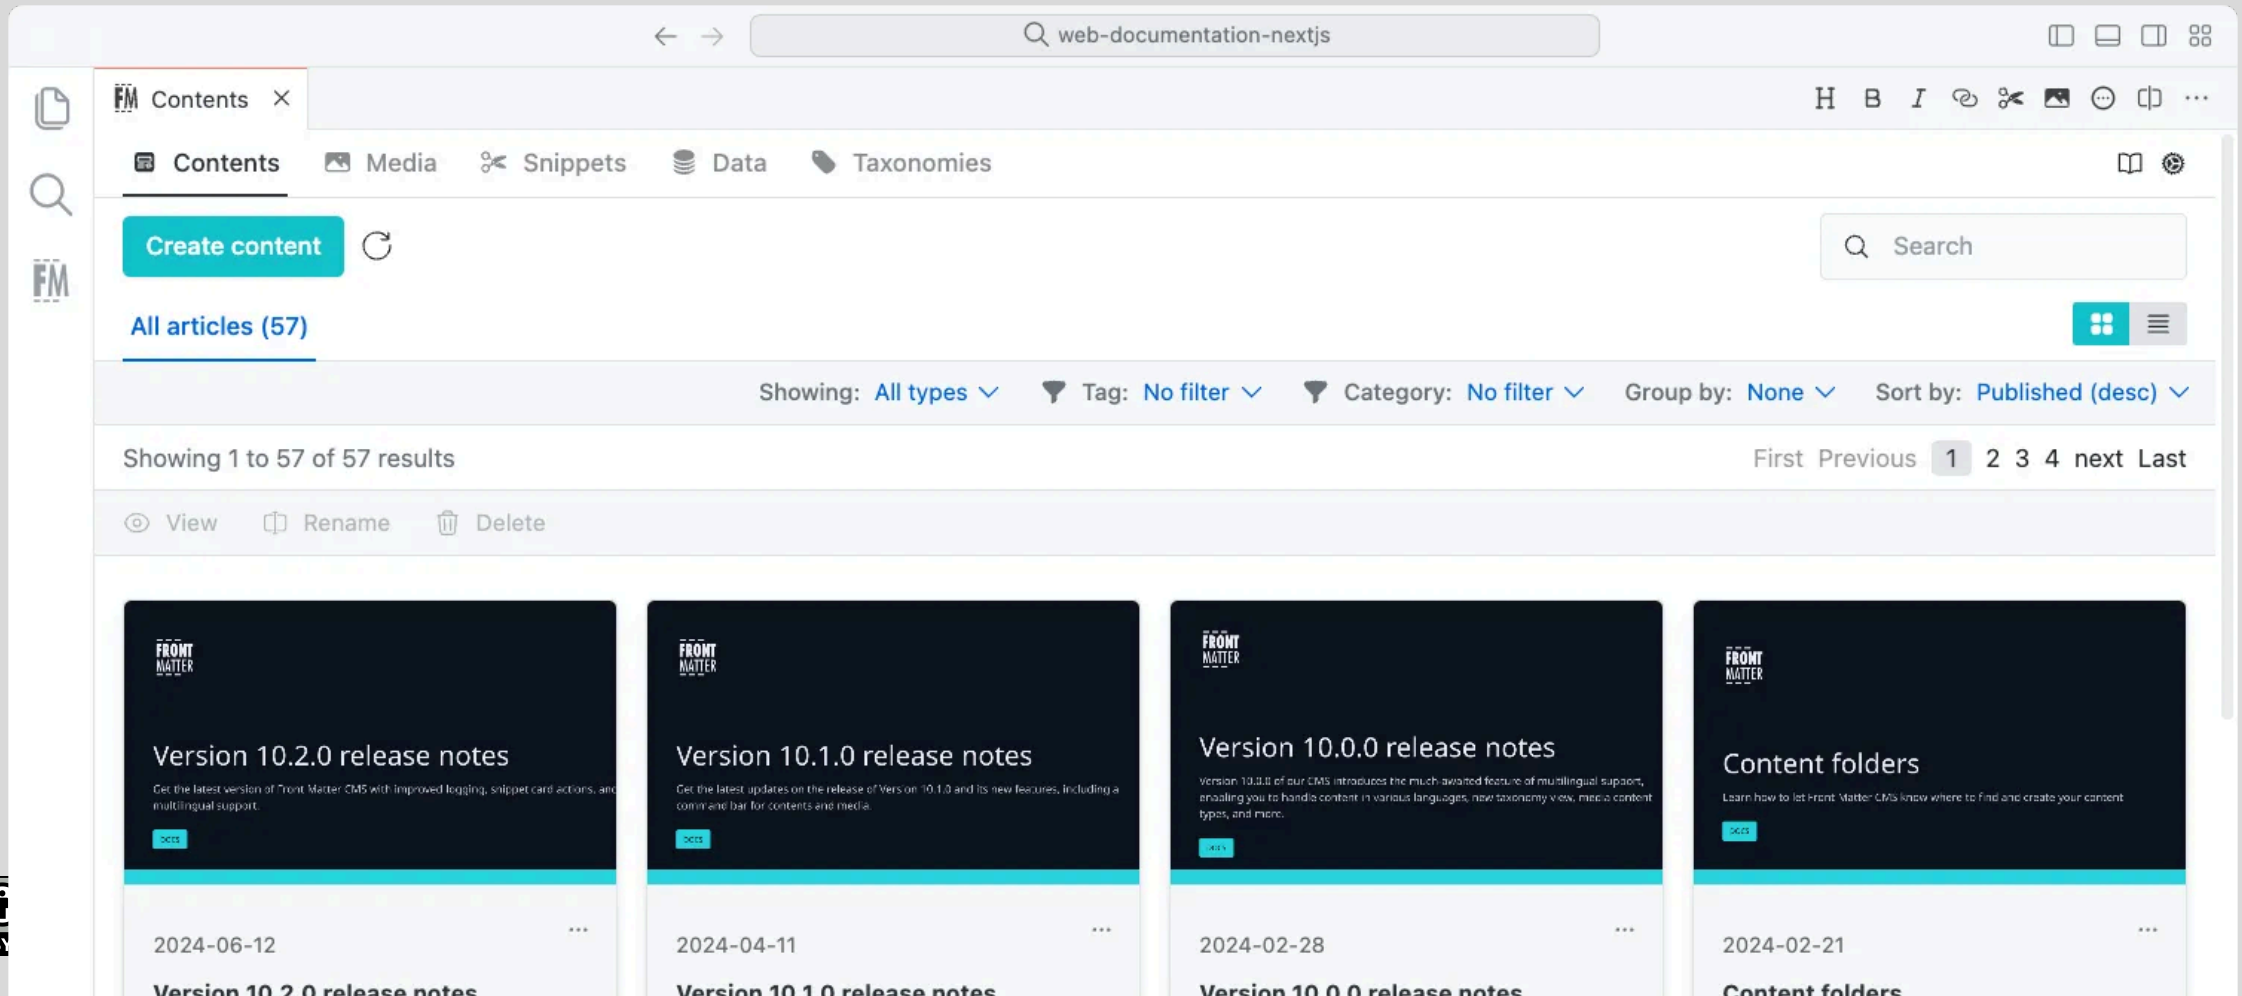

- Written in **React**
- Built for documentation sites
- MDX support (Markdown + JSX)
- Versioned docs out of the box
- Built-in search and i18n

VSCode Extensions

- GitHub Markdown Preview
- markdownlint
- Reflow Markdown
- Markdown All in One
- Marp for VS Code

FrontMatter CMS

VSCode Extension to punches above it's weight class.

The screenshot displays the FrontMatter CMS web interface. At the top, a navigation bar includes tabs for 'Contents', 'Media', 'Snippets', 'Data', and 'Taxonomies'. A 'Create content' button is prominently displayed on the left, and a search bar is on the right. Below the navigation bar, a filter section shows 'Showing: All types', 'Tag: No filter', 'Category: No filter', 'Group by: None', and 'Sort by: Published (desc)'. The main content area displays a list of articles, with the first four visible: 'Version 10.2.0 release notes' (dated 2024-06-12), 'Version 10.1.0 release notes' (dated 2024-04-11), 'Version 10.0.0 release notes' (dated 2024-02-28), and 'Content folders' (dated 2024-02-21). Each article card includes a brief description and a 'Docs' button. The interface is clean and modern, with a dark theme for the article cards and a light theme for the navigation and filter sections.

Tools

- markdownlint: Markdown best practices.
- Vale: Prose syntax.
- alex: Catch insensitive writing.
- Docker: Run in a container.

Maybe Your Favorite LLM?

Deploying Services

- GitHub Pages
- Netlify
- Cloudflare
- Vercel
- So many more...

Demo Time

THANK YOU
